

Read me

To open the multislides presentation - double click the file "Acting".

In the folder 'Material' you find films, links and tools that are needed for the slide show.

Further instructions can be found in the text 'How to use the multislides presentation' which can be opened from the starting page of the multislides.

For Mac users: The links in the presentation can be sensitive to Swedish signs å ä or ö in any of the folder titles in the folder structure.
